

PUBLIC NOTICE

PERMIT APPLICATION: **NRS07.131**

APPLICANT: Kurt Conner
1717 Charity Drive
Brentwood, Tennessee 37027
615-504-5441

LOCATION: unnamed tributary to West Fork Aeon Creek, near Spring Hill in Williamson County, 35.7638°N, 86.8825°W; USGS Spring Hill (TN) Topo Map

WATERSHED DESCRIPTION: The unnamed tributary is a spring fed first order stream. The tributary has not been assessed for use support. The receiving stream, West Fork Aeon Creek, also has not been assessed. You may view this public notice on the web at:

<http://www.state.tn.us/environment/wpc/ppo/arap>.

PROJECT DESCRIPTION: The proposed activity consists of dewatering, cleaning and re-lining a small stream impoundment. The impoundment (pond) does not hold water. The purpose of the work is to restore the pond for its recreational value. The applicant proposes to construct a temporary cofferdam and pump the flow around the dam to dry out the pond bottom. The undergrowth of brush and trees that have established in the pond bed would be cleared and the silt in the bottom removed. An 8" layer of bentonite would be placed in the bed of the pond to seal it. The cofferdam would then be removed to fill the pond from upstream.

In accordance with the Tennessee Antidegradation Statement (Rule 1200-4-3-.06), the division has determined that the proposed activity will not result in degradation to water quality.

PERMIT COORDINATOR: Robert Baker

No decision has been made whether to issue or deny this permit. The purpose of this notice is to inform interested parties of this permit application and to ask for comments and information necessary to determine possible impacts to water quality. Persons wishing to comment on the proposal are invited to submit written comments to the department. Written comments must be received within **thirty days of the date that this notice is posted**. Comments will become part of the record and will be considered in the final decision. The applicant's name and permit number should be referenced.

Interested persons may also request in writing that the department hold a public hearing on this application. The request must be filed within the comment period, indicate the interest of the person requesting it, the reasons that the hearing is warranted, and the water quality issues being raised. When there is sufficient public interest in water quality issues, the department will hold a public hearing.

The permit application, supporting documentation including detailed plans and maps, and related comments are available at the department's address for review and/or copying. The department's address is:

Tennessee Department of Environment & Conservation
Division of Water Pollution Control, Natural Resources Section
7th Floor L & C Annex
401 Church Street
Nashville, TN 37243

In deciding whether to issue or deny a permit, the department will consider all comments of record and the requirements of applicable federal and state laws. In making this decision, a determination will be made regarding the lost value of the resource compared to the value of any proposed mitigation. The department shall consider practicable alternatives to the alteration. The department shall also consider loss of waters or habitat, diminishment in biological diversity, cumulative or secondary impacts to the water resource, and adverse impact to unique, high quality, or impaired waters.
